20 March 1963

MEMORANDUM FOR: Chief, Printing Services Division, OL
THROUGH : Chief, Administrative Staff, CR
SUBJECT : Purchase of Bruning Copytron

The attached Staff Study by the Chief of the Control Section compares the merits of the Bruning Copytron with the Xerox 914 Copier. It would be reasonable to expect a savings of \$3-400 per month dependent upon the use of standard or premium and letter or legal size paper. The economy to be gained, while retaining the flexibility of the Xerox 914, strongly supports the recommendation for replacing one 914 with a Copytron.
